

# Bib Shorts

## Standard Bib Shorts

### Description

An excellent entry-level bib shorts, the Seight Standard Bib Shorts are exactly what you need. They are modern, quality and comfy cycling apparel that give you great value for your money, and are well designed to fit both men and women riders.

Standard stitching of these bib shorts ensures reduced sewing seams and a smooth feel, while the flatlock stitching conforms well to your body when you bend over in a cycling position. Made with a polyester and lycra sublimated panel, moisture wicking and breathability are enhanced to reduce the chances of chafing. The high density chamois lining is antibacterial, while the silicon leg gripper prevents the shorts from riding up.

### Features

- Sublimated Panel: POLY-LYCRA™ 240 gsm, UPF50+, LYCRA Compression Technology
- Non sublimated Chamois Panel: NYLON-LYCRA™ 225 gsm
- Bib: POLY-LYCRA™ 180 GSM
- Bib Binding: NYLON LYCRA 225 GSM
- Italy Elastic Interface Road Performance Chamois
- Elite 6 thread FLATLOCK stitching and safety stitching
- Silicon leg grippers
- Reflective tag on back side seam
- Reinforced stitching on pressure areas
- Available in both Men's and Women's

## Elite Bib Shorts

### Description

An upgrade from the standard bib shorts, the Seight Elite Bib Shorts uses a modern, seamless and multi-density Italian chamois which provides comfort and support where you need it most.

It is designed with sublimated LYCRA fabric, which fits perfectly like a second skin to keep your body dry and warm. The fabric is designed to absorb and disperse moisture across its surface, enhancing evaporation to keep you dry. It also uses a Flatlock stitching technique to deliver strong, durable, and low profile seams while the silicon leg grippers keep the bottom leg hems securely in place.

### Features

- Sublimated Panel: POLY-LYCRA™ 240 gsm, UPF50+, LYCRA Compression Technology
- Non sublimated Chamois Panel: NYLON-LYCRA™ 225 gsm
- Bib: POLY-LYCRA™ 180 GSM
- Bib Binding: NYLON LYCRA 225 GSM
- Italy Elastic Interface Road Performance Chamois
- Elite 6 thread FLATLOCK stitching and safety stitching
- Fabric Power Band leg grippers - POLY-LYCRA™ 240 gsm
- Reflective tag on back side seam
- Reinforced stitching on pressure areas
- Available in both Men's and Women's

## Elite Pro Bib Shorts

### Description

Constructed from the highest quality ITALIAN fabric, the Seight Elite Pro Bib Shorts provides the best in aerodynamic and thermoregulation performance, whilst giving optimum ride comfort. It is indeed our ultimate cycling bib short and one of our hardest working items in the line up.

Its seamless, anatomical shape, and multi-level Carbonium Road Performance chamois is engineered for stability, delivering increased muscle support and all round comfort. The elite thread Flatlock stitching method gives this bib short an appealing look and a soft feeling on the skin, and the Power Band leg gripper keeps the bib shorts in place.

### Features

- Available in both Men's and Women's

## Cyclo Cross Warm Up Tights

### Description

Heading out for a ride in winter may seem like a bad idea, however the only thing that can really be bad is to be wearing the wrong clothes on your ride. Wearing the Cyclo Cross Warm Up Tights is definitely a good idea during winter, as our high performing Italian Lycra fleece fabric gives you an absolutely perfect fit, flexibility, with maximum warmth and comfort during winter riding conditions.

The bib tights chamois has excellent thermal regulation and is anatomically shaped for the ultimate support when cycling. They are stitched using a flatlock method to avoid chafing and enhance durability. Their full length ensures maximum body coverage, which keeps you both warm and protected during even the worst of winter conditions.
