## Elite Short Sleeve Skin Suit

### Description

Each detail of the Seight Elite Short Sleeve Skin Suit has been meticulously observed to create a garment which delivers a superior cycling experience. It is constructed using top end Lycra fabrics which wick moisture efficiently, and fits perfectly on your body and won't flap in the wind whilst riding.

It is designed with side and back panels that improve breathability and comfort. The tapered collar allows a more comfortable fit. The chamois (pad) used is equipped with antimicrobial & heat dispersion features and multi-density foam for maximum comfort while riding.

### Features

- High-wicking, stretchable and breathable Italian made fabrics
- 170 GSM Ultraviolet Protection Factor 50+, LYCRA Compression

### Technology fabric for upper body

- Sublimated Panel: POLY-LYCRA™ 240 gsm, UPF50+, LYCRA Compression

### Technology

- Non sublimated Chamois Panel: NYLON-LYCRA™ 200 gsm, UPF50+, Excellent Compression and Comfort

- Invisible YKK 3/4 length invisible zipper with water drop puller
- Tapered collar
- Italian Elastic Interface Road Performance Classic Chamois
- Standard and double-needle stitching
- Fabric Power Band leg hem
- Reflective tag on back side seam
- Reinforced stitching on pressure areas
- Available in both Men's and Women's

## Elite Long Sleeve Skin Suit

### Description

Seight Elite Long Sleeve Skin Suit is the ultimate in aerodynamic design and ideal for elite road racing. Made from highest quality ITALIAN fabrics, it fits perfectly on your body and quickly dries to provide comfort and superior thermoregulation.

It is designed with side and back panels that improve breathability and comfort. The tapered collar allows a more comfortable fit. The chamois (pad) used is equipped with antimicrobial & heat dispersion features and multi-density foam for maximum comfort while riding.

## Elite Pro Short Sleeve Speed Suit

### Description

Look & feel like a pro rider in the Seight Short Sleeve Speed Skin Suit. It is meticulously designed with aerodynamic Italian Lycras to ensure not a millisecond is lost. Both legs and arms are powered by proprietary Italian Silicon Injected Power Band. This design is a perfect blend of aerodynamics, ergonomic fit and an anatomical shape for a totally efficient cycling experience.

Every panel is assembled using Flatlock stitching technology for appealing and quality apparel. The tapered collar allows a more comfortable fit. The proprietary Power Band ensures your apparel stays in its destined position comfortably, and most importantly allows you to ride at maximum speed.

### Features

- High-wicking, stretchable and breathable Italian made fabrics
- 180 GSM Ultraviolet Protection Factor 50+ breathable fabric for sleeves
- 180 GSM Ultraviolet Protection Factor UPF50+, LYCRA Compression Technology fabric for upper body
- Sublimated Lower Panel: POLY-LYCRA™ 240 gsm, UPF50+, LYCRA Compression Technology fabric
- Non sublimated Chamois Panel: NYLON-LYCRA™ 200 gsm, UPF50+, LYCRA Compression Technology
- Invisible YKK 3/4 length invisible zipper with water drop puller
- Tapered collar
- Italian Elastic Interface Road Performance Chamois
- Elite 6 thread FLATLOCK stitching
- Italian Silicon Injected Power Band sleeve cuffs and leg grippers
- Triple Seam Stitch on Power band joining seam
- Reflective tag on back side seam
- Reinforced stitching on pressure areas
- Available in both Men's and Women's

## Elite Pro Long Sleeve Speed Suit

### Description

Made with aerodynamic Italian Lycra fabric, a high performing chamois, and Power Band grippers, the Seight Elite Pro Long Sleeve Speed Skin Suit conveys all your energy to the pedals for magnificent speed and efficiency. This design is a perfect blend of aerodynamics, ergonomic fit and an anatomical shape for a totally efficient cycling experience.

Every panel is assembled using Flatlock stitching technology for appealing and quality apparel. The tapered collar allows a more comfortable fit. The proprietary power band ensures your apparel stays in its destined position comfortably, and most importantly allows you to ride at maximum speed.

- Triple Seam Stitch on Power band joining seam
- Reflective tag on back side seam
- Reinforced stitching on pressure areas
- Available in both Men's and Women's

## Elite Pro Short Sleeve Super Suit

### Description

Designed, trialled and tested by professional cyclists, Seight Elite Pro Short Sleeve Super Suit is our all-in-one ultimate cycling gear and offers the very best in performance technology.

It's like a jersey and shorts sewn together at the back and open in the front. That means great ventilation and no bib straps to constrict movement. It is made up of high performance materials including an Aerodynamic Lycra fabric, a high performing chamois, and Power Band grippers. The tapered collar allows a more comfortable fit. There are pockets in the back for extra cargo space. The back pockets are carefully positioned for a minimal impact on aerodynamics. Ergonomically placed seams ensure unrestricted movement, while flat seams prevent chafe.

### Features:

- High-wicking, stretchable and breathable Italian made fabrics
- Jersey:
  - \*180 GSM Ultraviolet Protection Factor UPF50+, LYCRA Compression Technology breathable fabric for front, upper back and collar panel
