

Wind Vests/ Jackets

Standard Wind Vest

Description

When the climate is at its worst, the Seight Standard Wind Vest is at its best. They are made from wind and water resistant polyester fabrics to enhance comfort and performance when you are riding. The vest is lightweight and breathable for an outstanding cycling experience, and has a mesh that regulates temperature for maximum comfort.

These vests are amazingly packable, so they can be easily scrunched into the rear pockets when the sun peaks out again. Its graphics are sublimated for high quality prints and keep the fabric breathable. They really come in handy during those freakish weather condition which always seem to change from sunshine to rain when you least expect it.
